

▶ When working on a tablet, you will want to rely on the tools found in **this video**.

USING AN IPAD OR TABLET

- Whether you are starting a new website or logging into an existing one, you can use a tablet to build your website.
- You will open a browser on your tablet and register/login to begin your website by going to nhdwebcentral.org.
- You can refer to the instructions on pages 2-8 for registering and creating your website, as the instructions remain the same.

Notes about tablets

- The blue control box that appears with your elements (explained on page 21) will help you navigate your blocks and edit on a tablet.
- Devices that NHDWebCentral® can be created/built on:
 - iPad
 - Amazon Fire
 - Android tablets
- On your tablet, you will go to nhdwebcentral.org through your browser to access your website.

NOTE: While you can build your website on a tablet, refining and testing it on a laptop or desktop computer would be best. This ensures the functionality works correctly when a judge or teacher views your website.
